Turn Your Bathroom into a Showroom with Sculpted Toilet Design from American Standard

High Efficiency Engineering Provides WaterSense-Certified Performance; Concealed Trapway and EverClean Antimicrobial Surface Streamline Cleaning

LAS VEGAS, HD EXPO (May 15, 2013) — Sleek European styling, high

performance and water saving engineering are displayed in the [Cadet 3 FloWise concealed trapway toilets](#) from American Standard.

These high-efficiency toilets — elongated and round front models — use only 1.28 gallons of water per flush (gpf). They meet the stringent WaterSense requirements of the U.S. Environmental Protection Agency (EPA) by using at least 20 percent less water on each flush than standard toilets.

These smooth-sided toilets feature the exclusive American Standard PowerWash Rim bowl cleaning technology as well as the permanent EverClean antimicrobial surface that make cleanup a cinch.

The American Standard Cadet 3 FloWise concealed trapway round front toilet uses only 1.28 gallons of water per flush, earning WaterSense-certification for saving 20 percent more water than standard models.

- more -

These Cadet 3 toilets leverage the American Standard PowerWash Rim bowl cleaning technology that scrubs the bowl with pressurized water from the rim during every flush to remove every last trace of paper and waste. This bowl scouring action is bolstered by the generous three-inch flush valve in Cadet 3 models that allows more water to enter the bowl faster for greater flushing power and a large 2 1/8-inch trapway to avoid clogging.

This flushing power earned these Cadet 3 toilets the highest possible rating in the Maximum Performance (MaP) test, an independent report of toilet bulk removal performance. These toilets are rated to successfully flush 1,000 grams (2.2 pounds) of solid waste without clogging.

The skirted styling of these toilets features the American Standard permanent EverClean antimicrobial surface that inhibits the growth of stain and odor-causing bacteria, mold, and mildew on the surface, making them stay cleaner longer. Moreover, with no hard-to-clean curves, the smooth-sided design is not only beautiful, but easier to maintain.

These Cadet 3 toilets feature comfortable 16 1/2-inches Right Height styling that meets ADA requirements for accessibility. They include a top-mounting toilet seat and cover with easy lift-off feature for simple removal and reattachment for cleaning. Plus, it's a slow-close seat that eliminates the loud slamming of standard toilet seats.
