## American Standard Offers Dual Flush Toilets with Sleek Luxury Performance Styling

*Elegant, Modern Studio Line Achieves WaterSense-Certification, Delivers 1,000 MaP Flushing Results*

LAS VEGAS, HD EXPO (May 15, 2013) — Saving water while offering luxurious comfort and style is easier than ever with the [Studio dual flush toilets](#) from American

The sleek, smooth American Standard Studio dual flush toilet, with its concealed trapway and EverClean permanent finish, is easy to keep clean while providing luxury styling for any bathroom.

Standard. These luxury performance (LXP) toilets offer users the choice between a standard 1.6 gallons per flush (gpf) for solids or a reduced 1.1 gpf for liquids, meeting WaterSense criteria for using 20 percent less water than standard models while offering superior flushing performance.

The Studio models — [elongated](#) and [round front](#), both in the comfortable 16 1/2-inch Right Height rim configuration — boast a clean, modern look with their concealed trapway styling. These Studio toilets coordinate beautifully with the elegant design lines of the Serin collection of bathroom faucets, simplifying hospitality specifying for a complete, stylish bathroom suite.

- more -

Using the innovative, siphonic-action PowerWash Rim technology from American Standard, these LXP toilets offer optimum performance that ensures both a powerful flush and superior bowl cleaning, every time. The Studio dual flush toilet has been independently rated to flush as much as 1,000 grams of solid waste, the highest possible score in the Maximum Performance (MaP) test, an independent report of toilet bulk removal performance.

Maintaining the attractive looks of this dual flush toilet is a breeze with the permanent EverClean antimicrobial surface that inhibits the growth of stain and odor causing bacteria, mold and mildew on the surface. Moreover, with no hard-to-clean curves, the smooth-sided concealed-trapway design is not only beautiful, but easier to maintain.

The Studio dual flush toilets include a top-mounting toilet seat and cover with easy lift-off feature for simple removal and reattachment for cleaning. Plus, their slow-close seat eliminates the loud slamming of standard toilet seats. The two-button chrome actuator on top of the tank allows the choice of the appropriate flush.
