**FOR IMMEDIATE RELEASE**

## American Standard Launches Versatile Portfolio of Sleekly-Styled Stainless Steel Kitchen Sinks

*Four New Collections Feature Range of Style and Price Offerings;  
Single and Double Bowl Models Include Selection of Installation Options*

ORLANDO, KITCHEN & BATH INDUSTRY SHOW (January 10, 2017) — Offering refreshed styling and price points conducive to a broad range of homeowners, American Standard announces its upgraded portfolio of high-quality, stainless steel kitchen sink collections. From classically traditional to strikingly modern styles, these four new American Standard stainless steel sink assortments meet a variety of design needs, while maintaining style and functionality in the kitchen.

“Today’s selective consumer demands a range of high-style choices when investing in a new sink to effectively meet their cooking and kitchen task needs,” said Noelle Giblin, senior director of faucet product marketing at LIXIL Americas, the business division under which American Standard operates.

New from American Standard, the Pekoe series of stainless steel kitchen sinks bring a sleek, clean look to the kitchen with crisp design lines and undermount installation.

- more -

“This versatile new portfolio of smart, spacious stainless steel sinks provides consumers with a lifetime of quality and exceptional performance while complementing any kitchen décor,” Giblin continued.

### **Pekoe Sinks: Contemporary Lines with Upscale Styling**

Boasting superior modern style with crisp lines and slim curves, the Pekoe sink assortment offers designs that are bound to impress. Made from durable 18-gauge stainless steel with 10mm radius coved corners, these sinks are easy to clean and built to last. Pekoe sinks offer a seamless, integrated look with undermount installation and come with matching bottom grids to help protect the sink surface. List prices range from \$500 to \$750.

To easily create a coordinated look, this new sink offering is well-matched to the stylish simplicity of the American Standard [Pekoe collection of kitchen faucets](#) that includes pull-down, pull-out and semi-professional models.

### **Portsmouth Sinks: Suit Transitional Kitchen Decor**

Highlighting classic style and durable, 18-gauge stainless steel construction, the new Portsmouth collection of stainless steel kitchen sinks from American Standard are offered in a wide selection of configurations to suit any kitchen.

A refreshing blend of iconic style and modern functionality, the Portsmouth kitchen sink collection is designed to fit any kitchen décor. These new sinks convey a timeless look, with rounded corners for easy clean-up and undermount installation for a high-end look.

All Portsmouth sinks are made to last with premium 18-gauge stainless steel construction. They are available in a wide variety of configurations with both single and double bowl options to easily customize installation. Optional bottom grids are also

available to protect the sink surface and keep it looking new for years to come. List prices range from \$390 to \$600 for sinks, \$70 to \$120 for grids.

Portsmouth sinks are complemented by the vintage detailing and classic style of the [Portsmouth line of kitchen faucets](#) from American Standard.

### **Edgewater Sinks: Modern Zero Radius Edges**

Give your kitchen a modern edge with the straight lines and distinct corners of the Edgewater stainless steel kitchen sink series. These sleek, rectangular sinks showcase perfectly straight design lines and distinct 90-degree angle corners. With tapered, zero radius corners and premium 18-gauge stainless steel, these single and double bowl sinks will add a contemporary element to kitchen countertops.

The new Edgewater stainless steel sink series from American Standard is an ideal complement to contemporary kitchen decors and offers convenient dual-mount installation options to suit either undermount or top-mount configurations.

Edgewater sinks also offer the convenient option to customize their look with dual-mount installation options. These sinks can be installed as top-mount or undermount, depending on homeowner preference. All Edgewater sinks come with coordinating bottom grids for sink protection. List prices range from \$500 to \$600.

This series is an ideal match to the sleek curves and strong design lines of the American Standard [Edgewater collection of pull-down kitchen and bar faucets](#).

### **Colony Sinks: Traditional Styling at Value Pricing**

Ideal for homeowners looking to complete a quick kitchen makeover, the Colony sink series offers a variety of configurations to fit almost any sink replacement need. These 20-gauge stainless steel single and double bowl sinks feature a convenient drop-in design for quick and easy installation.

The Colony series also includes ADA-compliant single and double bowl sinks constructed of 22-gauge steel. These sinks offer a shallow 6-inch depth designed to simplify tasks, like washing dishes and cleaning up, for those with limited mobility in their arms, shoulders or back.

Dishes are kept easily within reach during washing. If the user drops an item into the bottom of the sink, these shallow bowl kitchen sinks make it easier to retrieve the object than with standard depth 9-inch sinks.

The Colony sink models are ideally complemented by the Colony PRO line of kitchen faucets from American Standard, which are offered in a wide array of configurations and finishes to suit most design preferences. List prices range from \$200 to \$400.

Featuring 20-gauge stainless steel construction for lasting beauty, the new Colony collection of stainless steel kitchen sinks from American Standard offer convenient drop-in installation, as well as a selection of ADA-compliant models designed to simplify common tasks for users with limited mobility.

All four collections include waste fittings, plus necessary hardware, instructions, and templates for

easy installation. These sinks are covered by a limited lifetime warranty with a one-year warranty on included accessories.

These new American Standard stainless steel kitchen sinks will be available at kitchen and bath showrooms nationwide starting April 2017. For more information, visit [www.americanstandard.com](http://www.americanstandard.com) or call (800) 442-1902.
