The [Berwick Monoblock Bathroom Faucet](#) from American Standard demonstrates symbiosis between fluid elegance and defined precision. This ribbon-like and sleek design has a contemporary yet subtle flair that brings a renewed look to any bathroom. Both the monoblock and the [Berwick Widespread Bathroom Faucet](#) are WaterSense-certified to help save water, with a maximum flow rate of 1.2 gallons per minute. Ceramic disc valve cartridges provide a lifetime of drip-free performance. The swivel spout on the widespread model rotates for easy rinsing in hard to reach spots and provides convenient access to the sink basin.

[The Decorum One-Pint High-Efficiency Urinal](#) by American Standard features a sleek, compact vitreous china design that is ADA-compliant. The urinal meets ANSI flush requirements at 0.125 gpf, which uses 87 percent less water than a standard 1.0 gpf urinal. It can be used with a [Selectronic Exposed Urinal Flush Valve](#), which includes the optional PWRX Long-Life Battery System for a 10-year battery life to reduce the downtime and maintenance costs associated with changing batteries.

Inspired by the effortless, elegant and continuous movement of water, the [Fluent Bathroom Faucet Collection](#) from American Standard captures the pure, ever-changing form and flowing beauty of nature. The collection of faucets also offers technologically advanced function with water-saving performance and easy installation features. The [Fluent Widespread Lavatory Faucet](#) (pictured above) features an angled handle design for a more comfortable grip and the option of adding discreet hot and cold color indicators on the handles.

The [Pintbrook Urinal](#) from American Standard is a smart, high-efficiency washdown urinal that saves water by operating in the range of 0.125 gpf to 0.50 gpf. The urinal meets all 2016 California water restriction regulations, including CalGreen and CEC compliance. This optimized design is expertly crafted to provide superior splash protection. The ADA-compliant urinal also features a 3/4" inlet top spud, and includes two wall hangers.

Showcasing minimalistic geometric shapes complimented by rich wood grains and metals, the [Studio Collection from American Standard](#) is an attractive bathing solution for hospitality settings as well as for discerning homeowners. The crisp design lines of the [Studio EverClean Air Bath](#) are echoed in the [Studio Above Counter Sink](#), the [Studio Single-Handle Monoblock Faucet](#), and the [Studio Deck-Mount Tub Filler](#) for a bold, contemporary look. The [Studio ActiVate Concealed Trapway Right Height Elongated Toilet](#) features touchless flush technology, which limits the spread of potential germs and bacteria that can be present on a traditional lever design.

Distinguished by artisanal tapered design recalling the stately shapes of the Manhattan Bridge pediments, the [Townsend Single-Handle Bathroom Faucet](#) delivers an unforgettable combination of urban styling and water-efficient performance. Innovative features accompany this impressive design, such as an exclusive Speed Connect metal drain that makes installation easy, and a maximum flow rate of 1.2 gallons per minute that helps save water without sacrificing performance. The [Townsend High-Arc Widespread Lavatory Faucet](#) features elegantly crafted handles reminiscent of fine wood joinery and is available in a choice of four designer finishes.

The [Walk-In Bath with an Outward Opening Door](#) from American Standard offers a safe, attractive, and convenient way for those with limited mobility to enjoy a bath. The large, outward opening door allows access to the chair height seat, while the textured tub floor and the grab bar add security by limiting the risk of slips and falls. This tub also features a Quick Drain system, which drains the tub in only two minutes.
