

FOR IMMEDIATE RELEASE

High-Efficiency Pintbrook Urinal Offers Sleek Contours, One-Pint Performance

Commercial Offering from American Standard Provides Water Efficiency; Smart Design Reduces Splashing and Simplifies Maintenance

BOSTON, GREENBUILD (November 8, 2017) — Expanding on the one-pint capable urinal offerings from American Standard, part of LIXIL, the wall-mount, vitreous china [Pintbrook high-efficiency urinal](#) operates in the range of 0.125 to 0.5 gallons per flush (gpf) and meets all 2016 California water restriction regulations, including CalGreen and CEC compliance.

It uses up to 87 percent less water than a standard 1.0 gpf urinal, while still meeting optimum flushing performance standards, and is WaterSense-certified when used with a 0.125 or 0.5 gpf flush valve. For facilities requiring lower water usage, this Pintbrook 0.125 gpf model is a suitable alternative to the popular American Standard [Allbrook 0.5 gpf urinal](#).

Keeping user comfort in mind, this Pintbrook urinal is designed with a generously deep bowl and superior splash protection contours. It is a ¾-inch top spud urinal that includes two wall hangers, a 2-inch NPT outlet spud, and a strainer, plus is NAFTA and ADA compliant.
