Thank you for selecting American Standard... the benchmark of fine quality for over 100 years.

To ensure that your installation proceeds smoothly—please read these instructions carefully before you begin.

**RECOMMENDED TOOLS**

- Flat Blade Screwdriver
- Phillips Screwdriver
- Adjustable Wrench
- Plumbers’ Putty or Caulking

**INSTALL FAUCET WITH OR WITHOUT DECK ESCUTCHEON**

- **(A) Installation with ESCUTCHEON (1).** (Escutcheon is not supplied with base product). Apply a bead of putty to bottom edge of ESCUTCHEON with PUTTY PLATE (1). Make certain the SEAL (9) is properly seated in recess of faucet body. Insert SUPPLY HOSES (2), SPRAY HOSE (7) and SHANK (3) through hole of ESCUTCHEON with PUTTY PLATE (1) and mounting surface. Follow mounting instructions below to secure faucet to mounting surface.

- **(B) Installation less ESCUTCHEON (1).** Make certain the SEAL (9) is properly seated in recess of spout base. Insert supply HOSES (2), SPRAY HOSE (7) and SHANK (3) through mounting hole and seat spout base onto sink or mounting surface. Do not use putty.

- Insert HOSES (2) through RUBBER WASHER (4), BRASS WASHER (5), and threaded LOCKNUT (6).

- Assemble RUBBER WASHER (4), BRASS WASHER (5), and threaded LOCKNUT (6) onto SHANK (3) from underside of sink or mounting surface. Hand tighten LOCKNUT (6).

- Use a screwdriver to tighten SCREWS (8) on LOCKNUT (6). Work your way around LOCKNUT (6), tightening the screws slightly each time until all are snug to ensure even pressure.

**CAUTION**

Turn off water at main supply.
2 MAKE WATER SUPPLY CONNECTIONS

- Turn off hot and cold water supplies before beginning.
- Connect FLEXIBLE SUPPLY HOSES (1, 2) directly to wall supplies. Connection on fitting supplies are 3/8” compression. Connect left supply hose (Red Stripe) to Hot wall supply. Connect right supply hose (Blue Stripe) to Cold wall supply. Use adjustable wrench to tighten connections. Do not over tighten.
- Faucet supplies are 21” long from faucet base.
- Note: If additional supply length is required, installer must purchase additional parts separately.
- Important: If SUPPLY HOSES (1, 2) are too long, loop as illustrated to avoid kinking.

3 CONNECT SPRAY HOSE & INSTALL WEIGHT

- Thread the SPRAY HOSE END (2) into the HOSE CONNECTOR (1).
- With HAND SPRAY (3) seated in SPOUT (4), install WEIGHT (6) onto HOSE (5) 21 inches from the underside of the sink deck and secure with LATCH (7).
- With one weight, spray will retract and dock potentially requiring slight assistance.

4 CHECK CONNECTIONS FOR LEAKS

- Move HANDLE into “off” position.
- Turn on water supplies and check connections for leaks.
**TEST INSTALLED FAUCET**

- Move HANDLE (1) into "off" position.
- With HANDLE (1) in "off" position, unthread SPRAY (3) from HOSE (2).
- Operate handle back to front, in COLD and HOT positions, to flush water lines thoroughly.
- Replace SPRAY (3) onto HOSE (2).

**SPRAY OPERATION**

- With FAUCET on press TOGGLE BUTTON (4) on SPRAY (3) to switch from stream to spray.
- Press and hold PAUSE BUTTON (5) to temporarily stop flow from SPRAY (3). Release PAUSE BUTTON (5) to resume flow from SPRAY (3).

**SERVICE**

If faucet drips, operate HANDLE several times from "off" to "on." Do not apply excessive force.

Clogged CARTRIDGE outlets or inlets may cause reduced flow.

To clean, first turn off water supply then:

- Loosen HANDLE SCREW (1) and remove HANDLE (2).
- Unthread the ESCUTCHEON CAP (3).
- Unthread three MOUNTING SCREWS (4).
- Lift CARTRIDGE (5) off MANIFOLD (6).
- Clean MANIFOLD (6) and CARTRIDGE (5) ports.
- Place CARTRIDGE (5) onto MANIFOLD (6) and tighten MOUNTING SCREWS (4) alternately.
- Replace SNAP RING (3), HANDLE (2), tighten HANDLE SCREW (1).

For Reduced Flow:

- FLOW CONTROL DEVICE may accumulate dirt causing distorted and reduced water flow.
- To service FLOW CONTROL DEVICE unthread SPRAY ASSEMBLY and rinse clean FLOW CONTROL DEVICE.

**CARE INSTRUCTIONS:**

DO: CLEAN WITH CLEAR WATER. DRY WITH A SOFT COTTON FLANNEL CLOTH.

DO NOT: DO NOT CLEAN THE PRODUCT WITH SOAPS, ACID, POLISH, ABRASIVES, HARSH CLEANERS, OR A CLOTH WITH A COARSE SURFACE.
Replace the “YYY” with appropriate finish code
