PRODUCT FEATURES:

**VALVE:**
- Universal Inlets / Outlets: 1/2" NOM Copper Sweat or 1/2" NPT.
- Cast Brass Valve Body: Durable. Ideal material for prolonged contact with water.
- Ceramic Disc Valve Cartridge: Assures a lifetime of drip-free performance. Allows easy control over both water temperature and volume.
- Pressure Balancing Valve Cartridge: Maintains constant output temperature in response to changes in relative hot and cold supply pressure. Diaphragm system with integrated check valves engineered to eliminate cross flow. Avoids failure due to mineral deposits - ideal for use in hard water.
- Back-to-Back Capability: Hot and cold can be reversed quickly and easily.
- Adjustable Hot Limit Safety Stop: Limits the amount of hot water allowed to mix with cold. Reduces the risk of accidental scalding.
- Exclusive Plaster Guard: Plaster guard is designed to protect valve during installation and serve as a mounting plate for thin-wall installations. Two-piece design allows valve to be tested prior to trim installation.
- Wide Rough-in Range: From 1-5/8" to 3-1/4".
